PROFESSIONAL SUMMARY

Detail-oriented and dedicated Computer Engineering student with a strong foundation in front-end and back-end development. Skilled in JavaScript, React.js, HTML, and CSS for creating visually appealing and responsive designs, while proficient in Python, Java, MongoDB, and SQL for seamless back-end integration.

EDUCATION

- Bachelor of Computer Engineering | Savitribai Phule Pune University (SPPU) | 2022 – 2026
CGPA: 8.00 / 10
- Higher Secondary (12th) | Nirmal Bethany Junior College, Pune | 2022
Percentage: 65.17%
- Secondary (10th) | M.M.Vidyamandir School | 2020
Percentage: 86.40%

EXPERIENCE

Frontend Web Development Intern

Codtech IT Solutions | Jan 2025 – Feb 2025

- Developed and optimized responsive interactive web applications and games using HTML, CSS, and JavaScript.
- Developed modern UI components with Tailwind CSS's utility-first approach, improving design efficiency.
- Optimized website performance by improving load times and code efficiency.

SKILLS

Programming Languages: Java, Python, HTML5, CSS3, JavaScript.

Frameworks & Libraries: React.js (v18+), Express.js, Node.js, Tailwind CSS, Bootstrap, Spring Boot, Swing, AWT.

API Integration: REST APIs, Axios.

Database Management: SQL, MongoDB.

Version Control: Git, GitHub.

PROJECTS

1. AI-Powered Q&A Web App - [\[Link\]](#)

Tech Stack: React.js, Tailwind CSS, JavaScript, REST API, Local Storage

- Developed a dynamic Q&A web app allowing users to ask questions and get real-time responses using an AI API.
- Implemented recent search history using Local Storage.
- Built a fully responsive and intuitive user interface.

2. Bank Management System - [\[Link\]](#)

Tech Stack: Java, Swing, AWT, SQL, JDBC, NetBeans

- Built a desktop application supporting account creation, deposits, withdrawals, and account overview.
- Integrated a secure database system using SQL and JDBC.
- Designed a simple, user-friendly GUI for smooth banking operations.

3. Library Management System - [\[Link\]](#)

Tech Stack: HTML5, CSS3, Python, SQL

- Developed a library management system to add, update, delete, and track books using Python and SQL.
- Designed a clean, responsive user interface using HTML5 and CSS3 for smooth user interaction.
- Streamlined library operations by improving data handling, record management, and overall usability.
